Teaching Sustainable Food Systems in Our Times Sandbox Webinar Series

21-DAY RACIAL EQUITY HABIT-BUILDING CHALLENGE

**Speaker:** Karen Spiller, Thomas W. Haas Professor in Sustainable Food Systems, University of New Hampshire

**Webinar Time:** Thursday Feb 25th 2021 at 1pm EST

Join us February 25th for a webinar led by Professor Karen Spiller to introduce the seventh annual 21-day Racial Equity Habit-Building Challenge. From **April 5th to the 25th** join together with thousands of people on a shared journey of learning, expanding your knowledge, and charting a course of action to dismantle racism in our food system and our world!

The 21-day Racial Equity Habit-Building Challenge provides an opportunity to create time and space to reflect on daily email prompts with resources to build more effective social justice habits including those dealing with issues of race, power, privilege, and leadership. You commit to deepening your understanding of, and willingness to confront, racism for twenty-one consecutive days in April of 2021. The Challenge will raise your awareness, change your understanding and shift the way you behave. There is no charge to participate in the 21-Day Racial Equity Challenge. The Food Solutions New England network organizes the Challenge as part of their commitment to building racial equity in our food system.

As the Thomas W. Haas Professor in Sustainable Food Systems at University of New Hampshire (UNH), Durham, NH, Karen’s primary responsibility is to connect the community-engaged, transdisciplinary work of Food Solutions New England (FSNE), and in particular, its racial equity work, to students, faculty, and staff at UNH through lectures, workshops, and collaborative scholarship.

**Zoom Meeting ID:** 825 6583 7035  
**Passcode:** QUH071
This sandbox webinar series for all Sustainable Food Systems educators provides professional development opportunities to gain, enhance, and share knowledge and skills regarding two pedagogical issues of this time:

(1) Justice, Equity, Diversity, and Inclusion (JEDI) and,

(2) Online teaching

Field experts will lead each webinar with the sharing of equity-minded pedagogical innovations. Sandbox sessions will facilitate space for reflection, brainstorming, ideation, and sharing of practices.
