

TEACHING SUSTAINABLE FOOD SYSTEMS IN OUR TIMES

Diversiform Storytelling: An Indigenous Pedagogical Model That Invites Diverse Voices Into Learning

Speaker: Dr. Wren Walker Robbins,
*Director, Secondary Science
Education Program,
Salish Kootenai College*

October 22nd 2020: 10am HST / 1pm PST / 2pm MST / 4pm EST / 9pm GMT

Indigenous knowledge is grounded in the landforms and ecologies of the places that give it substance and in the relationships that people develop with those places. Diversiform storytelling is an Indigenous pedagogy that sustains and perpetuates that knowledge by ensuring the inclusivity of the diverse voices that transmit it. In this interactive webinar, you will have an opportunity to participate in a storytelling session and then use the experience to build awareness of Diversiform storytelling and its application to sustain and perpetuate diverse voices and identities in your work as an educator.

Sandbox Webinar Series

TEACHING SUSTAINABLE FOOD SYSTEMS IN OUR TIMES

This sandbox webinar series for *all* Sustainable Food Systems educators provides professional development opportunities to gain, enhance, and share knowledge and skills regarding two pedagogical issues of this time:

(1) Justice, Equity, Diversity, and Inclusion (JEDI) and,

(2) Online teaching

Field experts will lead each webinar with the sharing of equity-minded pedagogical innovations. Sandbox sessions will facilitate space for reflection, brainstorming, ideation, and sharing of practices.
