Indigenous knowledge is grounded in the landforms and ecologies of the places that give it substance and in the relationships that people develop with those places. Diversiform storytelling is an Indigenous pedagogy that sustains and perpetuates that knowledge by ensuring the inclusivity of the diverse voices that transmit it. In this interactive webinar, you will have an opportunity to participate in a storytelling session and then use the experience to build awareness of Diversiform storytelling and its application to sustain and perpetuate diverse voices and identities in your work as an educator.
